

Our Mission

We aim to develop a community based program that raises the bar for the development of the student athlete. We will foster relationships with all soccer organizations in the North Island to create further opportunities for our players. We will oversee the general development and time each and every student puts towards the sport and the supplemental activities or demands placed on their time. The Centre for Soccer Excellence at Kwailikum Secondary will address the academic and athletic needs of students who either play or desire to play soccer at a higher level.
